

Overview

- Multi-Stage Filtration Technology
- State of Art, German Made Main Coalescer Filter
- Provide Superior Performance with min. Energy
- Decreases Oil Consumption by Recovering Oil

Standard Features

- 3-Stage Filtration Technology
- Filter Level Indicator & Filter Clog Alarm
- Tool-Free Maintenance
- LED Bar as Status Indicator

Applications

- CNC Machining Centers (Lathe, Milling etc.)
- Wet Grinding
- Metal Forming

Technical Data

Filter

Filter Stage	3 + HEPA (Optional)
Stage -1	Washable Metal Filter
Stage -2	Washable Mesh Filter
Stage -3	Coalescer Main Filter
Stage -4 (OPT.)	HEPA Filter
Filter Technology	Multi Stage Filtration
Filter Efficiency	
Standard	F7 Class
Optional	H13 Class

Additional Information

Fan Type	AC Fan
No of Connection	max. 4
HS Code	8421.39.85.90.00

Basic Information

Extraction Capacity	
Standard	600 m ³ /h
Optional	500 m ³ /h
Dimensions	695 x 800 x 840 mm
Weight	90 kg
Motor Power	1 x AC Fan
Power Supply	230 V / 50 Hz
Noise Level	
Standard	70 dB(a)
Optional	68 dB(a)

Dimensions
